

July 24, 2007

Dear George

Although the 2007 AME Canadian Region Lean Conference has been over for several weeks, the excitement generated during that event perpetuates, as attendees and presenters alike continue to give us overwhelming positive feedback.

As a Workshop presenter, your contribution was invaluable. Your willingness to share your ideas with other members of the manufacturing and related communities was appreciated by everyone involved. I hope that you also enjoyed, and benefited from, the experience.

The information from the evaluations that were submitted has now been compiled. Attached are a summary listing of overall scores for all presentations and details for your presentation including scores and attendee comments.

I want to take this opportunity to say how very much I enjoyed working with you over the past many months and to express my appreciation for your time and effort. On behalf of the 18-member Conference team we thank you for presenting and sharing at this edition of **Measure Up for Success**.

Sincerely,

Sam Barnes
Workshop Coordinator
2007 AME Canadian Region Lean Conference
Edmonton, Alberta, Canada
