I am pleased to write this letter of recommendation on behalf of Vidir Morris Inc regarding the work that George Trachilis has performed in our plant.

George is a professional that clearly is knowledgeable in his field of lean manufacturing, 5S, Kanban, etc. He is a good communicator and relates well with shop floor employees and management alike.

I feel the changes he has made at Vidir Morris Inc will affect our profit margin in a positive way and the clean safe work stations add to the professional image of our plant.

I welcome any inquiries regarding OEM Consultants Inc.
