

Wil-Rich has a 340,000 square foot factory in Wahpeton, ND, Wil-Rich produces a wide variety of tillage equipment with a reputation for toughness as well as innovation.

In 2004, we hired OEM Consultants, which were referenced from another consulting company, to kick-start our Lean Manufacturing initiative. We received excellent training from George Trachilis and OEM, and started our journey. Our people were engaged in the process from the beginning, and the skills and techniques that OEM brought to the table were exactly what we needed.

It is clear to me that OEM Consultants is with us for the long haul, and we are sure to use their services again in the future. I would recommend OEM to any company that wants to get things done. If you have any questions, please do not hesitate to call me.

Sincerely,

Victor Klosterman  
General Manager
